

ASSOCIATE OF SCIENCE IN HEALTH SCIENCES

The Associate of Science in Health Sciences (ASHS) program is designed to equip students with the knowledge and skills needed to excel in the field of health care. This online health science degree program provides a comprehensive foundation for those seeking a career in health care, health promotion, disease prevention, and service in various settings. With a strong emphasis on professional skills and ethical decision-making, this associate degree in health science prepares graduates to make a meaningful impact in the healthcare industry.

One of the program's unique strengths is its integration of a Christian worldview, fostering a holistic approach to healthcare. This distinctive perspective ensures that graduates are not only well-prepared academically but also grounded in values that promote compassionate patient care. Furthermore, the AS in Health Sciences serves as an excellent stepping stone for further studies in nursing or advanced degrees in health-related fields. ASHS students can also continue their academic journey at APU Global by applying credits to the BSHS or BPH program.

Whether students aspire to become a healthcare professional or want to continue their education, this associate degree program opens doors to a range of exciting opportunities, making it an ideal choice for anyone seeking a versatile and enriching educational experience in the health sciences.
